Research

- In a study conducted by the Department of Energy and the National Association of Homebuilders in 1994, it was concluded that “energy savings would be obtainable in a great portion of U.S. households” with Enerjoy.
- “The occupants of the test home preferred the radiant heating system over the forced-air system.”

Why Enerjoy Radiant Peopleheaters®?

- No maintenance
 - 5 year warranty
- No ductwork and easy to install
 - perfect for basements
 - additions
 - attics

Why Enerjoy Radiant Peopleheaters®?

- Clean, quiet, non-allergenic
 - Airborne dust, pollen and germs are reduced with elimination of blowing air
 - no ‘cold blow’ effect
 - No noise, no odor
- Takes up no useable space

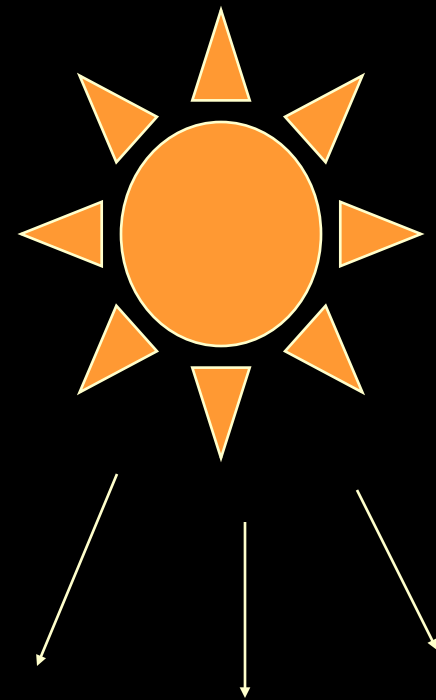

*Experience comfortable heat for
the first time!*

“We’ve had ENERJOY 10 years. My husband puts them in every house he builds...I’m just surprise everyone doesn’t have them. I think they’re wonderful. *U. Parenteau, Colchester, CT*

Enerjoy heat modules work with the laws of physics, unlike forced hot air or baseboard systems

- “Heat does not rise. ...hot air rises in cool air.” *NYTimes Science Digest*
- Enerjoy panels work to heat your home like the sun heats the earth.
- Sun’s rays warm objects in its path which in turn reradiate warmth to other objects

Enerjoy is perfect, no matter what style home you have...

*Treat your heat like your lights.*TM

- Enerjoy panels are zone controlled with thermostats
- Eliminate heating unused space
 - Guest bedrooms
 - Basement
